## MUSIC & SPEECH

Join one of our most loved groups where we dance, create, explore new instruments, sing our favorite songs, and promote communication in our group instructed by a Speech Language Pathologist and Music Therapist!

# why choose Sprout Therapy

## Group Prep

In order to prepare for each of our groups, every participant that is new to our clinic will come in to meet one of our therapists, and have the opportunity to participate in a brief screening. Through data gathered in this session, specific and individualized goals will be created and embedded into each program. These screenings also help us to determine appropriate support needed for each child to succeed and will help you to know if the group is the right fit for your child!

## Group Size & Instructors

Each group has a max ratio of 1 adult to 4 children. Professionals in each group range from certified Speech Language Pathologists, Occupational Therapists, Certified Occupational Therapy Assistants, BCBA's and support through RBT's and BT's.

## Pricing & Registration

- Pricing for each group can be found on the registration page.
- Groups may be paid through scholarships, private pay, or county funds.
