

# PLAY2GROW

Ages 4 & Under, Siblings Welcome

Play  
Grow  
Learn

- Designed by an Intervention Specialist and Occupational Therapist, the **PLAY2GROW** class will help aid your child's development through an abundance of play, sights, sounds, textures, movement, stories and more.
- Early learning builds the foundation for future learning and brain development.
- Using play based and sensory-specific activities, your child will engage with the environment around them in an intentional, meaningful way.
- Parents and/or caregivers can have fun while attending with their child, meet and socialize with other parents, and create new friendships.

Benefits

- Play based & sensory specific activities are integral to the development of gross and fine motor skills, cognitive skills, and social skills.
- Multisensory play facilitates a deeper understanding of the world allowing the brain to make important connections.
- Multisensory play is a fantastic way to strengthen the muscles to prepare your child for handwriting, cutting, using utensils, and other fine motor skills.
- Play based & sensory specific activities allow for natural opportunities to learn social skills such as turn taking, sharing, and more.
- Provides a warm, safe environment for parents/caregivers to meet and socialize, ask questions, and share stories.
