

Creative Arts Therapies

Summer Camps
at Fairmount:
Ages 9-12

July 2026!

Sound and Motion Studio

Ages 9-12 | Monday, July 6th- Friday, July 10th | Chardon Campus

In this social media spin-off week, campers will create short choreography clips, design album art, create “behind the scenes” stories, play fun sound and movement games, and work together with peers on a collaborative project. This program will help support skill development in teamwork, self-regulation, and self-discovery.

Game Mode

Ages 9-12 | Monday, July 20th- Friday, July 24th | Chardon Campus

Join us this week and reimagine classic games through the lens of color, texture, and movement! Campers will design their own games throughout the week and have the chance to engage with peers to play each others’ games along the way. This playful week encourages self-expression, fosters imagination, and supports sensory regulation.
